CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This communication contains certain forward-looking statements, including, but not limited to, certain plans, expectations, goals, projections, and statements, which are not historical facts and are subject to numerous assumptions, risks, and uncertainties. Statements that do not describe historical or current facts, including statements about beliefs and expectations, are forward-looking statements. Forward-looking statements may be identified by words such as expect, anticipate, believe, intend, estimate, plan, target, goal, or similar expressions, or future or conditional verbs such as will, may, might, should, would, could, or similar variations. The forward-looking statements are intended to be subject to the safe harbor provided by Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and the Private Securities Litigation Reform Act of 1995.

While there is no assurance that any list of risks and uncertainties or risk factors is complete, below are certain factors which could cause actual results to differ materially from those contained or implied in the forward-looking statements: changes in general economic, political, or industry conditions; uncertainty in U.S. fiscal and monetary policy, including the interest rate policies of the Federal Reserve Board; volatility and disruptions in global capital and credit markets; movements in interest rates; competitive pressures on product pricing and services; success, impact, and timing of our business strategies, including market acceptance of any new products or services implementing our "Fair Play" banking philosophy; the nature, extent, timing, and results of governmental actions, examinations, reviews, reforms, regulations, and interpretations, including those related to the Dodd-Frank Wall Street Reform and Consumer Protection Act and the Basel III regulatory capital reforms, as well as those involving the OCC, Federal Reserve, FDIC, and CFPB; and other factors that may affect our future results. Additional factors that could cause results to differ materially from those described above can be found in our Annual Report on Form 10-K for the year ended December 31, 2016, and Quarterly Reports on Form 10-Q for the quarters ended March 31, 2017, June 30, 2017, and September 30, 2017, which are on file with the Securities and Exchange Commission (the "SEC") and available in the "Investor Relations" section of our website, <http://www.huntington.com>, under the heading "Publications and Filings" and in other documents we file with the SEC.

All forward-looking statements speak only as of the date they are made and are based on information available at that time. We do not assume any obligation to update forward-looking statements to reflect circumstances or events that occur after the date the forward-looking statements were made or to reflect the occurrence of unanticipated events except as required by federal securities laws. As forward-looking statements involve significant risks and uncertainties, caution should be exercised against placing undue reliance on such statements.

Potential Conversion of Series A Preferred Equity

4Q17 Average Diluted Shares Includes Conversion for First Time

- Potential conversion of \$363 million of 8.50% Series A preferred equity into \$363 million of common equity yields opportunity to optimize regulatory capital ratios in 2018 CCAR process
 - Evaluating the need to replace this preferred equity with new preferred issuance
 - Potential conversion of Series A preferred equity would have positive impact on TCE ratio, CET1 ratio, and TBVPS, and immaterial impact to diluted EPS
 - Conversion terms: each Series A preferred share converts into 83.668 HBAN common shares (partial shares are paid out in cash)
 - Shareholder can choose to convert at any time
 - Conversion can be forced if HBAN common shares close at or above \$15.54 for 20 out of 30 trading days
 - As of January 22, 2018, HBAN has closed above this threshold for 6 of the past 7 trading days
 - The earliest potential date of forced conversion is February 9, 2018
-
- 4Q17 average diluted shares outstanding includes 30 million shares from the assumed conversion of Series A preferred equity into common equity
 - Inclusion in diluted share count as a result of Basic EPS exceeding dilution threshold for the first time

\$ in millions, except per share

4Q17 Basic EPS	\$0.38

Use of Non-GAAP Financial Measures

This document contains GAAP financial measures and non-GAAP financial measures where management believes it to be helpful in understanding Huntington's results of operations or financial position. Where non-GAAP financial measures are used, the comparable GAAP financial measure, as well as the reconciliation to the comparable GAAP financial measure, can be found in this document, conference call slides, or the Form 8-K related to this document, all of which can be found in the Investor Relations section of Huntington's website, <http://www.huntington.com>.

Annualized Data

Certain returns, yields, performance ratios, or quarterly growth rates are presented on an "annualized" basis. This is done for analytical and decision-making purposes to better discern underlying performance trends when compared to full-year or year-over-year amounts. For example, loan and deposit growth rates, as well as net charge-off percentages, are most often expressed in terms of an annual rate like 8%. As such, a 2% growth rate for a quarter would represent an annualized 8% growth rate.

Fully-Taxable Equivalent Interest Income and Net Interest Margin

Income from tax-exempt earning assets is increased by an amount equivalent to the taxes that would have been paid if this income had been taxable at statutory rates. This adjustment puts all earning assets, most notably tax-exempt municipal securities and certain lease assets, on a common basis that facilitates comparison of results to results of competitors.

Earnings per Share Equivalent Data

Significant income or expense items may be expressed on a per common share basis. This is done for analytical and decision-making purposes to better discern underlying trends in total corporate earnings per share performance excluding the impact of such items. Investors may also find this information helpful in their evaluation of the company's financial performance against published earnings per share mean estimate amounts, which typically exclude the impact of Significant Items. Earnings per share equivalents are usually calculated by applying an effective tax rate to a pre-tax amount to derive an after-tax amount, which is divided by the average shares outstanding during the respective reporting period. Occasionally, when the item involves special tax treatment, the after-tax amount is disclosed separately, with this then being the amount used to calculate the earnings per share equivalent.

Rounding

Please note that columns of data in this document may not add due to rounding.

Basis of Presentation

Significant Items

From time to time, revenue, expenses, or taxes are impacted by items judged by Management to be outside of ordinary banking activities and/or by items that, while they may be associated with ordinary banking activities, are so unusually large that their outsized impact is believed by Management at that time to be infrequent or short term in nature. We refer to such items as "Significant Items". Most often, these Significant Items result from factors originating outside the company – e.g., regulatory actions/assessments, windfall gains, changes in accounting principles, one-time tax assessments/refunds, litigation actions, etc. In other cases they may result from Management decisions associated with significant corporate actions out of the ordinary course of business – e.g., merger/restructuring charges, recapitalization actions, goodwill impairment, etc.

Even though certain revenue and expense items are naturally subject to more volatility than others due to changes in market and economic environment conditions, as a general rule volatility alone does not define a Significant Item. For example, changes in the provision for credit losses, gains/losses from investment activities, asset valuation write-downs, etc., reflect ordinary banking activities and are, therefore, typically excluded from consideration as a Significant Item.

Management believes the disclosure of "Significant Items", when appropriate, aids analysts/investors in better understanding corporate performance and trends so that they can ascertain which of such items, if any, they may wish to include/exclude from their analysis of the company's performance - i.e., within the context of determining how that performance differed from their expectations, as well as how, if at all, to adjust their estimates of future performance accordingly. To this end, Management has adopted a practice of listing "Significant Items" in its external disclosure documents (e.g., earnings press releases, quarterly performance discussions, investor presentations, Forms 10-Q and 10-K).

"Significant Items" for any particular period are not intended to be a complete list of items that may materially impact current or future period performance. A number of items could materially impact these periods, including those described in Huntington's 2016 Annual Report on Form 10-K and other factors described from time to time in Huntington's other filings with the Securities and Exchange Commission.

Indirect Auto Charge-off Performance Reconciliation – non GAAP

- The auto loan performance trends were impacted by the acquired FirstMerit portfolio and accounting for recoveries on acquired loans.
- Accounting requires that all recoveries associated with loans charged off prior to the date of FirstMerit acquisition be booked as noninterest income. This inflates the level of net charge-offs as the normal recovery stream is not included.
